**A DREAM**

In January 1908 after my father, mother, brother and sisters died.

That night (I will remember)

Was beautiful and still.

And the moonbeams gleamed like diamonds

The sorrow that had come to me

Was very hard to bear:

And was late when I fell asleep

Wearily and worn with care.

I dreamt that I crossed rivers,

And deserts of burning sand

On the distant promised land.

As I gazed on the heavenly city

With its streets of beaten gold,

I saw mother in a robe of white

Safe within the Shepherd's fold.

And father was standing near her

Playing hymns on his violin

To myriad listening angels

Who had washed them free from sin.

## A DREAM

I cried, "O mother, mother dear!

Have you seen the Saviour's face?"

And she answered, "Yes my child,

And His mother, full of grace."

I asked if Lizzie, Joe and Annie

Had found eternal rest

With the sacred heart of Jesus

In the mansion of the blest?

She answered: "God forgave their sins,

Where they are there is no night,

Peace for them and joy forever:

In the glory of His eternal light."

I cried, "O mother, intercede for me,

Help to save your sinful child,

For I fear the cross is too high

And the waters deep and wild!"

She said: "Do not doubt God's mercy,

And Jesus who was crucified,

Will open wide the golden door."

She said: "Your burden is heavy,

But this the cross the Lord has laid:

I want you to follow the Master—

And be saved on the judgement day.

"When your enemies assail you,

And laugh at your weakness and pain,

Think of Jesus—His wounds—

Forgive them my child."

Then I felt her hand upon my brow

"Thou'rt her form I could not see

And I heard these words so clearly

"Thou'rt up to the Lord to follow me."

Then I woke and found the night

Dark and cold and chill;

The moon that shone when I fell asleep

Had disappeared behind the veil.

But the weight on my heart had lifted,

And the things I couldn't understand

Were cleared of doubt and mystery

By the touch of mother's hand.

**THE NEW MUSIC ROOMS**

(By Mrs. Z. L. Merchant)

"Music has the power to soothe the savage

breast."—Congreve.

And Mr. Freshland Howe is doing his best

To keep us all in a civilized state.

By playing his music early and late.

Go to his music rooms some day

And all his records, for you, he'll play.

The great Harry Lauder will sing for you

And you'll laugh and cry till he is through;

Enraptured you'll sit on the edge of your

chair.

While the Peerless Melba is warbling an air

You must hear Caruso, O that matches voice!

Then hear Scotti sing and make your choice.

If you buy their records, you'll want many

more.

Of singers who are famous the world over,

Just a few dollars, think how cheap,

And the songs you buy you can always keep.

If you want to New York to hear them sing

The price you'd pay would ransom a king.

A very big sum they would demand

And very likely you'd have to stand

But right here in Norway, every day,

You can hear them sing and nothing to pay;

For Mr. Howe with courtesy grace

Invites everybody into his place.—adv. 43

Great attraction especially among the children were the six ponies exhibited by Mrs. Chas. O. Martin.

The ball game took place in the forenoon and the Oxford High school ball team defeated the Grange team 4 to 1. Will Perkins dispensed ice cream and hot dogs and the usual picture taking man did a rushing business snapping pictures.

A beautiful dinner was served from 11 to 1 o'clock and about 250 people partook of same. The committee in charge of the dinner were Mrs. A. W. Hunting, Mrs. C. H. Brett, Mrs. A. L. Chaplin and Mrs. S. H. Downing.

Among the interesting features of the afternoon was the baby show. In the class of year old babies or under was Paul Williams, who took first prize, and Joseph A. Walker of Mechanic Falls, who took second. Isabelle Dickerson of Hebron, took the first prize for babies over one year old and Frederick Ingersoll of Oxford took second.

The general committee in charge of the fair was composed of A. L. Chaplin, Clement Poland and J. W. Hunting. The committee in charge of the hall was J. V. Hunting, Fred Hall, Mrs. R. F. Staples, Mrs. Geo. W. Tyner, Mrs. C. M. Hall and Mrs. Frank Bowker. There were 38.00; 500 and supper \$37.00; were about 500 who attended the fair, sundries \$12.00.

## Local Chauntaugas.

Going to Chauntauga formerly meant taking a railroad trip to western New York. Now it may mean taking a street car to a grove somewhere in the town's outlying district, and returning home for supper. People actually had to go to Chauntauga; now Chauntauga has been brought to them.

The most casual reader of small town newspapers is struck by the number of Chauntaugas held throughout the country during the past season. Chauntauga week is a real event, social as well as educational. It brings the small community in touch with the great thrilling world of ideas. It is an education, an inspiration—as fine an example of university extension practice as can be found.

The original Chauntauga was established more than 40 years ago on the banks of the lake whose name it took. For years that was all the Chauntauga there was. The influence of its sessions reached out through the publications of the organization and through its visitors but in no other way. Relatively few people, of course, could afford the time or the money to bring themselves into personal contact with it.

Now, however, some 200 Chauntaugas assemblies exist in various parts of the country, each contributing to the education and upbuilding of its community through the course of lectures, sermons and other cultural offerings. Men recognized far and wide for their eminence in various fields of thought and activity make the rounds of these small Chauntaugas, discussing politics, sociology, economics and the sciences and bringing their thousands of hearers into touch with the latest thought in many directions.

The Chauntauga and the county fair are valuable agencies of progress, through which much has been accomplished and more is to be expected.

Until recently, the accommodation a business man could get at his bank depended upon many factors besides the actual warrant of his business.

One important factor was the local money situation—how much money local business men needed, and how much the local bank had free to loan.

Under the Federal Reserve System, this Institution has discounting resources never before available.

Our service of helpfulness is at your command.

## BIG BARN DOOR SKETCHES

Purely Personal and Mostly About Myself and Early Career.

It became necessary for me to learn a trade. I was not anxious to do this. The pay was small and I felt it was throwing away time and an opportunity to earn money.

I got a chance to work on a gravel train at a dollar a day for the Boston, Concord and Montreal Railroad. Father would not allow me to do this. He laughed at the idea and said chances were if I went to work on the gravel train I'd shovel gravel all my life. He sternly put down his foot on this and told me to select any trade I wanted.

Father was a carpenter, I had worked some with him and I had no desire to learn that trade. I wanted to be a blacksmith and would probably have worked at it, had I not broken my right arm when I was 15. The arm was weak for some years. My grandfather was a shoemaker.

An opportunity offered to learn the printer's trade and I went to work for Martin A. Haynes of Lakeport on the Lake Village Times, in April 1871 and I soon "bronzed" John F. Caverley's paper and acquired lasting fame in that family and the paper was saved and shown to friends for years as "the work of that Fred Sanborn."

I printed cards with my name on them after hours. Mr. Haynes came in and caught me at it; he said nothing except to caution me not to put on too much "squeeze" and ruin the type. I played a great joke on the office. Everybody smoked but me. I printed a placard and tacked it on the dry-press "No Smoking Allowed." Mr. Haynes noticed it and took me to do for not spelling it correctly. The joke was me.

I was given a reprint piece of copy, telling of a woman who shot a burglar off a ladder, who was trying to get into her house in Pittsfield, Mass. John F. Dearborn, whose son is now foreman of the Laconia Democrat office, was the journey-man printer and showed me "the case" and put big cap letters in the U and N boxes. I gripped the stick and waged in the lines tightly as all beginners do. Dearborn read over the matter and emptied directly into the form without ceremony. It took me all that day to get the copy into type, possibly two stickfuls. Mr. Dearborn wasting more time with me than it would have taken him to have set the matter.

I built the fire and swept the floor next morning and that day had my first experience ink-rolling. It blistered my hands as I gripped the handles of the roller. A Washington hand press was used with fly and frisket. John Dearborn did the pulling and I, with much assistance from him, the rolling or ink-rolling. I had to step up on a block to reach the forms as the press set high, John being long legged.

The edition was not large and the first side was worked off in a couple or so hours, a white token per hour was the allotted speed of hand press work. The forms were washed, Mr. Dearborn assisting in bringing the water, and the ink roller safely housed in a box to keep it from drying out. Glue and molasses was a tempting morsel for them.

John Crain and Walt Peaslee used to come into the office as well as J. Warren Thynge, the artist and wood engraver, occasionally I would get fresh and receive a set-back from them but nothing serious.

I boarded with I. P. Plummer on Belvedere Hill for a few weeks. John Dearborn lived nearly opposite, we would walk home together and it was from his little son Willie I caught the measles, which housed me for a spell.

On my return to the office I went to board with Mr. and Mrs. Haynes; in the Bugbee house on Union Avenue—I cannot see that the house has changed any on the outside in the past 45 years—I noticed it particularly when in Lakeport this summer.

I. P. Plummer came from Meredith Center and taught piano music and F. A. Shaw boarded with him. Mr. Shaw now lives at the Center and his wife takes summer boarders and calls her home the Center House, while Frank farms and cares for the Robinsons Burying Ground and is nursing failing health.

Mr. Plummer and wife soon went to Canada and after the death of his wife, he moved to Fruitville, California, where he died a few years ago, leaving two sons. His wife is buried at the Center.

In my new home things were strange to me. There was a little baby called Ruth, which I used to rock in the cradle when Grandmother Stockpole was busy or Mrs. Haynes was out. This little one afterwards died and a relative of the family died, leaving a motherless child which they adopted. She is now the wife of Mr. Daniels, a son of the late Warren Daniels of Franklin Falls, who at one time represented his district in Congress.

The Times office was moved from opposite Brimstone Corner, across the railroad track and into the top of the Week's Block. Jacob Sanborn gave us a big lift in getting the hand press up three flights of stairs. Drs. D. F. & J. C. Moore, Homeopathic Physicians, and Dr. S. C. Sawyer, dentist, had offices on the second floor. On the first floor was the postoffice, dry goods and grocery stores. Major Aldrich, whom I think is now living, had the latter. The Major occasionally set type in the office for amusement.

Dr. Sawyer pestered me a good deal with jokes, and to get square with him one day I took all his teeth-pulling instruments into the printing office. A patient came in and he had no foretops. He came to the office and stormed me with talk in great shape. Mr. Haynes took my part and told the doctor if he would let me alone he would guarantee I'd play no jokes on him. After the doctor left, Mr. Haynes gave me a fatherly going over and I concluded that the taking of the doctor's tools was bad business.

Occasionally Fred E. Sanborn of Lakeport helped us in the office. Of course we didn't get on together any too well, he was stronger than I and would put me in the corner. In a foolish squabble I lost my temper and catching a piece of furniture, gave him a bat on the head, starting his scalp and making the blood run. Dr. Joe Moore fixed it him up, taking stitches in the wound. I think this frightened me and I have never struck any one since. Mrs. Haynes soon found it out and gave me the once-over in a motherly way, which I have ever remembered.

The 17th of October 1871 I found a Frenchman run over by a freight train. His head was severed and foot crushed. I was walking the track from Laconia to Lakeport in the evening. The way, I thought, didn't stop at the former place that night as usual and this poor fellow tried to get aboard at the street crossing

and fell between the cars. I attended the inquest the next morning and many months after received \$1.62, witness fee. His name was Trickey and under 25, he lived between the two villages.

Fred E. Sanborn, who bears marks of my ill temper, has been passenger conductor on the Lake Shore railroad for many years. I have often met him in years past and he holds no ill feeling towards me.

Some years ago he took up my ticket on his train and did not recognize who I was. I should never have known him, had I not been told that he was the conductor. On his return to the car I asked him to take off his cap, which he did, and I saw the scar and asked him how he got it. He recognized me at once and spent his spare time from there into Lakeport reviewing the early days and scenes when we were boys.

The past season he called me by telephone from Bridgton, Maine, where he was visiting relatives, to let me know he was near. I tried to induce him to come over and visit with me, but limited time and other engagements prevented. In those early days this Sanborn was known as "Hog Eye." There was a "Piggy" Piper and "Sky-Bow." Poss who had a sister and "Zeck" Gilman, whom I recall as associates.

I recall one warm day in July when only the click of dropping type into the stick was heard in the office. Mr. Haynes turned round and removing his long stemmed pipe said:

"John," referring to Mr. Dearborn, "about this time ten years ago today, I was in full retreat from the battle of Bull Run. It was the awfullest mob I was in, never saw anything like it since. Infantry, artillery, citizens, horses, mules, women and children in one grand mad rush for safety, and there wasn't a sound of a cannon or gun to be heard. 'It was down the Pike and death to him who stubbed his toe.' I've seen some fighting since, but never the equal of the running of Bull Run" and Mr. Haynes dropped into a rollicking war ditty, the words of which, as I can remember, was as follows:

McDowell led us to Bull Run  
And we ran, run, run,  
Brushing the whites of the sun, sun, sun,  
That's the way I'm here to day, run, run, run,  
Bull Run, sun, sun, sun,  
Run, run, run, Hooley for Washington!

Col. Martin A. Haynes and wife are now living, and I have to confine myself reasonably near the truth or they may again take me in hand.

I recently called on them and found the genial Colonel robust, whole-souled and hearty at 74. Apparently the same jolly, good natured, fun loving man of fifty years ago.

I caught him working. He was distributing type into a case in a room originally intended for a pantry. Three sides of it were filled with books. Local histories principally of New Hampshire.

Probably the most complete and valuable private collection in the State. Surely it contains many old, rare, and priceless volumes. It's a treasure house of local histories. I only regret they were not in a fire-proof vault.

The Colonel has written two histories of the Second N. H. Regiment. The first in 1865—when facts were fresh in the mind of the author and public. The latter one, which is very much longer and has many half-tones 1893. He is now engaged in printing a small edition of personal letters which he wrote his wife while he was in the war. He had 170 pages completed and was nearing the end.

Colonel Haynes served for three years as a private in Co. I 2nd N. H. and tells me there was a Norway man, Joseph H. Gleason, in his company. I wonder of any one about here remembers Mr. Gleason?

The Colonel and Mrs. Haynes have a home with ample land on Stark street, Lakeport, N. H., which they built some 30 years ago and it's filled with literature and curios gathered from many parts of the world while he was in the Government. There is a marked distinction between "a residence" and a "home."

Mr. and Mrs. Haynes have the latter in every sense of the word and with their daughter, who is something of a free-hand pencil sketch artist, and a good housekeeper, they are pleasantly passing their declining days.

Mr. Haynes started on his political life while I was there, being elected to the N. H. General Court in March 1871; then appointed Clerk of Courts and elected member of Congress and finished after many years in the Revenue Service for the Government.

He took him over a good part of the country, including Moonshine Whiskey Distillers in the South, the Broncho Busting Silver Diggers of Colorado and the Bamboo Hiding natives of the Philippines.

But to return to my apprenticeship days: I remember a Mr. Morrill of Gilgus, a frequent contributor of the Times office and occasionally would hand in an editorial. I understand he had at one time been editor of the Exeter News-Letter.

J. Warren Thynge, the present instructor of drawing in the N. H., engraved woodcuts and published an illustrated article regarding his "Grandfather's Coon Skin Coat" and a smelting trip to Mearley Pond and North County fishing trip adventures of more or less startling nature. Lawyer Keyes extolled the law and handled threatened libel suits and the Lake Village Times, to me, was a great paper and to miss the Alton-ham mail which left at 8 o'clock A. M., on Leve Whitney's stage, was a much dreaded public calamity. It set, down occurred.

Mr. Haynes was appointed Clerk of Courts to succeed O. A. J. Vaughan of Laconia, who had died. Mr. Vaughan was the editor of the Laconia Democrat and was the rival democratic paper. Col. Haynes and Mr. Vaughan were good friends and would borrow, lend and visit. Sometimes they would engage in a newspaper war, which would lead the folks to think a duel would be fought should they meet, but this was not so, there was no enmity; good fellowship and cigars took the place of pistols and swords.

My year finally came to an end and I left the Times office, feeling in common with all other apprentices, that I had been over-worked, abused and under paid. I look on it differently now and have for many years. I was well used and fairly paid. In fact, I really doubt if I earned the forty dollars and one keep that year.

To be continued.

A lazy person hates to go to bed at night and is disinclined to get up early in the morning. That's me.

F. W. SANBORN.

## Norway Grange.

An all day meeting was held by Norway Grange on October 14, at which were present, by invitation, the Boys' Sweet Corn Club and Girls' Canning Club of Norway, and the South Paris Boys' Sweet Corn Club. The Girls' Canning Club of South Paris was also invited, but was not represented at the meeting.

P. W. Monohon of the college extension service and Prof. George Yeaton were in attendance as speakers.

The meeting was called to order by worthy Master Richardson. Opening song followed by business, after which an open session was declared, and the Club members invited in.

The forenoon was devoted to work as follows—song, by Grange chorus. The question discussed was: What difficulties have you encountered in raising sweet corn this year?

Edgar Dunn, president of the Boys' Club of Norway, led the discussion, followed by Willard Buck, Jr., Shirley Noble, Mahlon Downing, Stanley Thurston, Elva Richardson, Herman Barrett, Leslie Millett, Lindsey Morse, Bradley Williams, Walter Brown, Walter Doughty and others. Remarks were also made by Hon. J. A. Roberts, Prof. Monohon, Prof. Yeaton, A. E. Morse and worthy Master Richardson. Over six hundred boys are enrolled in the Corn Clubs in Maine, six hundred boys on the right track.

A recess for dinner was next in order and fully enjoyed. Worthy Master Richardson again called to order and after a song by the Grange chorus, introduced P. W. Monohon, of extension work, who gave a very interesting talk to the Club, founded on facts of experience, making country life distinct between city and country life considering the latter the life to be desired in the mind or will or body. Prof. Yeaton was then introduced and commended the work of the Canning Club, and later he will make arrangements for an exhibit of work done by the Club.

Prof. Yeaton expressed hearty approval of all work accomplished. Sister Anna Goodwin then gave a reading subject: Charity, which was followed by a song "True Worth is in Being, not Seeming," by Grange chorus. Sister Goodwin followed with a humorous reading, which closed the program.

**SOUTH WATERFORD.**  
Mrs. Eunice M. Gilnes.  
Mrs. Eunice M. Gilnes, wife of Porter  
M. Gilnes, passed to the higher life Sun-  
day morning, October 8. Mrs. Gilnes  
has been a subject of an incurable dis-  
ease for forty-four years and a suffering  
invalid for most of those years. Her  
case has excited the greatest interest and  
concern of many excellent physicians and  
nurses. But amid all her suf-  
fering she manifested a spirit of Chris-  
tian resignation to the Lord's will.  
She was a daughter of Merrick and  
Betsy (Brown) Monroe, a native of So.  
Waterford and at her death was 71 years,  
9 months and 3 days old. A large assem-  
bly of relatives and sympathizing friends  
attended the funeral services at the late  
residence, which were solemnized by Rev.  
G. W. Sias. The interment was in the  
family lot in Elmvalle Cemetery. Mrs.  
Gilnes is survived by two brothers, John  
Monroe of Mechanic Falls, Briggs Mon-  
roe of Los Angeles, Cal., and an only  
sister, Mrs. Annie Walker of Mechanic  
Falls, who was a constant and loving  
companion and helper during her final  
period of sickness.

Ralph Willard came home last week  
and stayed a few days. He returned to  
Levinston Sunday in his father's auto to  
Mechanic Falls, thence by electric car.  
He will complete his term in Commercial  
College next month, and come home for  
good and join his father in management  
of their extensive lumber and coopersage  
business.

John Monroe of Mechanic Falls is  
stopping with Porter Gilnes, his brother-  
in-law, since the decease of Mrs. Gilnes,  
as companion and helper.

was not able to attend the meeting, al-  
though he was reported much improved  
in health. The presiding Master propos-  
ed that the brothers and sisters give an  
account of their experience this season  
with raising potatoes. Arthur Sander-  
son led off and was followed by Bros.  
Kilgore, Carl Hamlin, C. P. Riggs and  
others. Topics for discussion sometime  
in the future were brought in by members  
as follows: "What can be used as sub-  
stitutes for meat and potatoes? Sug-  
gest some cheap and nutritious foods?"  
"Loyalty to your home town and its in-  
dustries." The next regular meeting  
will be held Saturday evening, Oct. 28.

been a very hard one for many years,

during the past year or two. Can we

## NORWAY AND VICINITY.

Isabella Given  
Mrs. Isabella (Burgess) Given, widow  
of the late Fred A. Given of Portland,  
passed away October 12th, in the Maine  
General Hospital, where she had been op-  
erated upon for intestinal obstruction.  
This was the second operation, and she  
could not rally from the shock.  
Mrs. Given was the daughter of Henry  
Burgess of Elm Hill, and of the late  
Melvinia (Crocker) Burgess. She was  
born in Paris, December 12, 1863, there-  
fore, 47 years, 10 months and 2 days at  
the time of death.

Her early life was passed in Paris un-  
til she married Fred A. Given, a violin-  
ist of note. Since then both travelled  
extensively wherever Mr. Given's pro-  
fession led, but the vacation season was  
passed each summer at the home farm.  
The remains were brought to Paris for  
burial Saturday and Rev. C. G. Miller  
conducted the committal service at Pine  
Grove cemetery. All arrangements were  
made by Leroy Spiller.

A father and sister of Paris and son  
Fred H. of Portland survive.

## Heywood Club Notes

The Heywood Club resumed its meet-  
ings this fall on Wednesday, Oct. 11th.  
The meeting was held at the Club House  
and proved to be one of the most Parlia-  
mentary on record.

It was voted to put the building in re-  
pair, lay a new chimney, and put the  
house in good condition generally. It  
was also voted to hold a big supper, for  
which the Club ladies are noted, on Sat-  
urday, October 21st at 7 o'clock p. m.  
followed by dancing as usual. Plans  
are made to serve one of the largest par-  
ties on record too.

After the business meeting a social  
hour followed, with refreshments of  
tea, salmon, punch, hot biscuits, baked  
sweet apples and cream, and a variety of  
cakes and cookies.

Mrs. A. G. Lovejoy and Mrs. Elmore  
Buck were the committee in charge.  
Adjourned for two weeks to meet again  
at Club House. Mrs. Dinsmore and Mrs.  
Una Jackson, committee.

## Who May Get Left?

When Maine declared its wishes as to  
which party should serve it, there was a  
perfect stampede of candidates for the  
"Only Office" our postoffice. Everyone  
who has had or expected a circular or  
postal, has been interested by some of  
the many anxious candidates. They seem  
to overlook the fact, both office seeker  
and patron, that the matter is not set-  
tled until after November 7 and then,  
whichever way it goes, there is no cer-  
tainty as to whether there will be a change  
or not. Mr. Hughes being inclined to let  
well enough alone. Such a thing as Mr.  
Wilson being elected is a possibility that  
seems to be overlooked.

It certainly would be good taste, also  
good judgement to wait before binding  
one's vote, until the results are known.  
One would feel that time and friendship  
had been wasted in needless work, if we  
were obliged to endure for another four  
years, that which thousands of people  
still think is "the best ever" in spite of  
the Maine election.

His Bargain was Too Big  
Not long ago, James B. Frost, better  
known as "Jim," purchased a new 1917  
Ford automobile. Sometime previous to  
this, in the early part of the summer, Mr.  
Frost called at the E. N. Sweet Shoe  
Store to buy a pair of shoes.

He was shown what seemed to be an  
extraordinary bargain and although he  
didn't wish for a dress shoe, the ones  
shown were of a much clumsier, heavier  
style than he would have probably chosen.

Nevertheless, the trade was made, the  
shoes were taken home, "Jim" think-  
ing he had at last struck a real bargain.  
All went well, until he discovered he  
would be obliged to invest in a pair of  
smaller boots in order to be able to op-  
erate the foot gear on his car.

He also needs a wider entrance to his  
garage, but will soon overcome this.

Amy B. Gould of Malden, Mass., who  
has been visiting her aunt, Mrs. F. P.  
Morrill, has returned to her home where  
she will again take up the study of mu-  
sic.

The Main street crossings are being  
re-laid temporarily until road operations  
begin next spring. Albert Descoteau is  
doing the mason work. Joe King,  
Frank LaFrance and Victor Whitman  
are placing the flag stones.

## EAST DIXFIELD

Mrs. Susan Babb has suffered a paralytic  
shock. Mrs. Babb lived alone in  
this village. Monday morning she was  
supposed to be in her usual health, as  
she called up on the telephone one of  
her neighbors and talked with him, say-  
ing nothing but what she was all right.  
Monday noon Mrs. Ella White went to  
the home of Mrs. Babb for a pail of wa-  
ter, when she found her in a partially  
unconscious condition. Medical aid was  
immediately called and all has been done  
that could be. A nurse, Mrs. Florence  
Smith Colledge is caring for her.

"Uncle" Simon Smith celebrated his  
100th birthday Tuesday, October 17.

A letter recently received at this office  
was rather interesting to us. A party  
had sent the money for a small bill to  
the office by a female member of the  
household and she called at noon when  
the office was closed and forgot to call  
again. In closing the letter, the follow-  
ing post script appears, "I am afraid  
the Fall Fashions had something to do  
with causing her to forget to attend to  
my business."

YOUNG WOMEN  
MAY AVOID PAIN

Need Only Trust to Lydia E.  
Pinkham's Vegetable Com-  
pound, says Mrs. Kurtzweg.

Buffalo, N.Y.—"My daughter, whose  
picture is herewith, was much troubled

with pains in her  
back and sides every  
month and they  
would sometimes be  
so bad that it would  
seem like acute in-  
flammation of some  
organ. She read  
your advertisement  
in the newspapers  
and tried Lydia E.  
Pinkham's Vege-  
table Compound.

She praises it highly as she has been  
relieved of all these pains by its use.  
All mothers should know of this remedy,  
and all young girls who suffer should  
try it."

Mrs. MATTIE KURTZWEG, 529  
High St., Buffalo, N. Y.

Young women who are troubled with  
painful or irregular periods, backache,  
headache, dragging-down sensations,  
fainting spells or indigestion, should  
take Lydia E. Pinkham's Vegetable  
Compound. Thousands have been re-  
stored to health by this root and herb  
remedy.

If you know of any young woman  
who is sick and needs help-  
ful advice, ask her to write to the  
Lydia E. Pinkham Medicine Co.,  
Lynn, Mass. Only women will  
receive her letter, and it will be  
held in strictest confidence.

## HARRISON

Merton Kimball Accidentally Shot

Merton Kimball, aged 19, son of Eli-  
ott Kimball, was accidentally shot and  
killed by his cousin, Lawrence Kimball,  
aged 14, son of Bradford Kimball, while  
the two were returning from the hunting  
trip early Thursday evening. The weapon  
with which the shooting was done was a  
shot gun and the charge struck the youth  
in the side of the head.

The boys, who live about two miles  
from the village, were walking along be-  
hind the road and were fooling at the  
time the tragedy occurred, according to  
the story told by Lawrence. When he  
had recovered sufficiently from his fright  
after reaching the home of his parents,  
he said that he pointed the gun at his  
cousin, not realizing that it was loaded,  
and hardly had he raised it to his shoulder  
when it was discharged.

Merton fell in the roadway, with the  
blood pouring from the terrible wound  
in his head and Lawrence, throwing the  
gun into the bushes started for his home  
as fast as he could run, to notify his  
parents. In the meantime Mrs. J. H.  
Kimball, who lives nearby happened to  
come along, and seeing the body of young  
Kimball lying in the road she at first  
thought it was an intoxicated man. Ap-  
proaching a little nearer, though, she was  
horrified to see the wound in the head,  
and then she hurried to the home of a  
neighbor, Mrs. Campbell, and notified  
her.

Within a short time several had gath-  
ered at the scene of the shooting and Dr.  
E. A. Wight of Bolster's Mills was no-  
tified and came as soon as possible. A  
hasty examination showed that death  
had been instantaneous, and the town  
authorities at once sent for Dr. George  
I. Geer, one of the medical examiners of  
Cumberland county, who arrived late  
Thursday night.

The funeral was held at the home of his  
grandfather, Charles Eames, at South  
Albany, Saturday afternoon.

The Wyanogonic Club held its first  
meeting of the season, Wednesday after-  
noon, Oct. 11, at "The Lodge," the at-  
tractive summer home of Dr. and Mrs.  
C. B. Sylvester. Only three members  
were present. The rooms were bright  
with autumn leaves and a cheerful fire  
in the handsome stone fireplace, emphasized  
the cordiality with which our hostess  
greeted us. The program consisted of  
Rol Call: The most interesting book I  
have read this summer, President's  
greeting, Mrs. Mercy Gray; Reading,  
Selections from Robert Frost's poems,  
Mrs. Mary Sylvester. During the after-  
noon the hostess served cocoa, sandwich-  
es of different kinds, cake and fruit, the  
remainder of the afternoon was passed  
socially. Not the least of the many  
pleasures was the ride to and from, in  
the motor car of our hostess.

son.

this week. It has been an unusually  
short season.

The shooting at North Harrison late  
on Thursday afternoon, Merton Kim-  
ball, 19 years old, son of Elliott Kimball,  
was shot in the back of the head and  
neck, while walking down the road near  
the James Stone place, and instantly  
killed, by his own cousin, Lawrence Kim-  
ball, fourteen years of age. Medical ex-  
aminer Geer of Portland was summoned

## Back to the Old Home

Everyone will appreciate the longing to see his old home. That came to James  
Clark, 75 years ago he was born in a little town on the Atlantic seaboard. It took  
years of hard work and many hard knocks before he was able to retire from a very  
prosperous Machine & Boiler Manufacturing business at Sydney, Cape Breton, Nova  
Scotia, and move to Seattle with his family.

The desire to visit the Old Home came suddenly one day and, after looking over  
various makes of cars, he bought an Oakland Eight as best fitted for so strenuous a  
trip, equipped it with a complete camping outfit, and his wife, daughter and a friend  
completed as happy a party of roamers as the sun ever shone on. They made a  
day's visit at Portland and Spokane, then over the Old Red Trail to Jamestown,  
South Dakota. Now and then along the way they would "knock on wood" for none  
of the trouble usual to other cars had happened to their Oakland. They followed  
the Yellowstone Trail into Minneapolis and south to Chicago, and many a happy  
laugh they had at the stories Mr. Clark would tell of his boyhood days. The nearer  
he came to the Old Home the more interesting and funny were his stories. Some of  
the way it was slow traveling over muddy roads and long stretches of sand or De-  
kota gumbo, but nothing was able to stop the Oakland and no trouble except a puncture  
now and then from the careless tack or nail.

### That Rally Day

"Now for a grand rally!" It is refreshing to note the enthusiasm that has been aroused in behalf of the movement for a large attendance at the churches last Sunday.

One can see at a glance that going to church is a material as well as a spiritual benefit.

If you wish to be successful in your employment, in your business, in your profession, there is no better way to attain that end than by going to church. The young man who goes to church has the confidence of his employer. The employer knows that a young man who is a regular church attendant cannot go wrong very far. The beneficial influence of the church is ever present.

It shouldn't be necessary to ask the man who has a growing son or daughter to go to church. Ordinary common sense teaches him that if he wants his children to tread the path of righteousness he'll show them the ordinary man's way to church on Sunday. There isn't a Christian father who will ask his boy or girl to stay away from church. He likes to see them at divine service. That boy or girl will do some tall thinking, however, when he or she doesn't see the father in church.

No man is too busy, no man's time so precious, that he cannot afford to spend a small part of one day in seven in the house of God.

Don't lie in bed on the Sabbath morn. The church services are not at an early hour. Six days in the week a man can rush for the office to be in time for business.

That is all right. He should be prompt in his business duties. He should also be prompt in his business with God. It is true that this is a rush age. But the biggest men in the country, the men whose services are worth as much as an hour as the ordinary man's are in a day may be seen for an hour and more every Sabbath in church. These men find time to go to church. They realize the seriousness of their obligation. They are not shirkers. They do not consider it a sign of weakness to be seen in church. They want to be seen there. All honor to these men.

If you are healthy and prosperous, go to church and thank God for His blessings. If you are ill and in want go to church and pray to God that your condition may be improved. And that reminds us how ready some people are to forget God and His blessings when things are coming their way. It is only when misfortune comes that they turn to God and the churches. Then they need God and the consolation that the church affords.

But, while God is merciful, He also is just. If, when people are prosperous and happy, they do not find time to visit the house of God, it is not just that God should pour out His blessings and graces to them when misfortune comes.

Don't make the specious plea that you're too busy to go to church.—Sanford News.

### WILD RIVER TRAGEDY

Tune: "Three Friends." Charles Freeman of Gilead, Me., murdered his wife, then took his own life on the morning of June 11th, 1851. The following song which was quite familiar to all along the Grand Trunk line at that time, tells his own story. Samuel Worthing, a New York man with a plenty of money of whom Charles Freeman was jealous, unknowingly escaped with his life by going home while the plot was being laid. This poem is contributed by Frank Lang of West Paris, then a boy living near Gilead where the tragedy occurred. The composer is unknown.

Hear the mournful tiding sound,  
See the orphans weeping round,  
Father, mother, where are they?  
In one moment snatched away  
From our fond embrace are gone,  
Never, never, to return.

Father, we were children three  
With our hearts bound up in thee.  
How you smiled to see us play  
Around your knees from day to day.  
Little did our youthful hearts  
Think that we so soon must part.

Happy days and years have been,  
Fondly you loved another then.  
How she sweetly on you smiled,  
How for her and us you toiled.  
Blissful seasons, happy home,  
But a killing frost has come.

"Tell us father, why did you  
Such a deed of murder do?  
Tell us till your latest breath,  
Till your eyes are closed in death,  
Every dark heart rending woe  
You were called to undergo?"

"Yes, I'll tell you children dear,  
All my grief and sorrow hear,  
Why I take away my life,  
And with me must die my wife,  
Worthily did he longer wait  
Would have shared our awful fate.

"In the autumn of last year  
Samuel Worthing did appear,  
Clothed in smiles and rich array,  
Kind and social every way.  
His approval I had with joy;  
And worked in his employ.

"Like the lark at early dawn  
I resumed my work each morn;  
Happy with a lovely wife,  
Enjoying all the sweets of life.  
But by fate I'm doomed to meet  
Bitterness for every sweet."

"Must I tell my tale of woe,  
Worthily intimate did grow  
With the only one I love,  
Whose vows are registered above.  
Willingly my wife I wed,  
Sweeping all my former ties.

"She began with him to ride  
Smiled and chatted by his side.  
Innocent they seemed to be  
All the while 'twas killing me.  
O, what pangs I did endure  
Till suspicious all were sure.

"Down to Bethel Hill they went  
At a ball the evening spent;  
They returned late in the night,  
In the kitchen struck a light.  
From my bed I then arose,  
To the kitchen window goes.

"Through the casement I could view  
Everything they there could do.  
How he hugged her to his breast,  
How her lips sweet kisses pressed.  
Smilingly she did remain,  
Hug and kissing back again.

"Further conduct to prevent,  
Wife, said I, 'What can this mean?  
On the wall the count is obscene.'  
"Clear, you sneaking scamp," she said,  
"You are always watching me."

"Jealous frenzy seized on me,  
Worthily's character I must see.  
Well, I learned during the day,  
In the bed which side he lay.  
Through the glass a drill I ran,  
Through the pane to point my gun.

"But that gloomy afternoon  
Down to Bethel he had gone.  
He did not return that day,  
For New York he took his way.  
Thus, by his wife's life did save  
From a dark untimely grave.

"Soon a trunk to Bethel came,  
On the wall was marked my name.  
Latham, (the truckman's name), brought the  
Trunk to me.  
In my hand he placed the key.  
When no other one could see  
I unlocked the mystery.

"Children's clothing here I found,  
Suited to my children round,  
Underneath a letter lay  
Smugly sealed and hid away.  
Soon I broke the seal and read:  
"Mrs. Freeman, I will wed."

"Come my love, O come away  
To New York, without delay.  
You and children quickly come  
I'll provide a splendid home.  
You, my lovely bride shall be,  
I will live and worship thee."

"Here despair had seized my soul,  
Grief and horror filled my bow.  
All my hopes did here depart  
Blood was curdling round my heart.  
Frozen up was every vein,  
O, my agony and pain!

"O, my God, I'm left alone  
And must stand before thy throne,  
Ere tomorrow's sun shall rise  
We will meet you in the skies.  
I cannot my wife resign,  
But must take her life and mine.

"I prepared the deed to do,  
When my gun and razor too  
When night's mantle star was spread  
She lay slumbering on her bed.  
I approached her in the breast,  
Aimed to shoot her in the breast.

"When I fired, I quickly ran,  
Loaded up again my gun,  
Fired it at myself to kill.  
Found myself yet living still.  
This is all I here can tell,  
Lovely children, Fare ye well!"

Freeman's body soon was found  
On the Widow Lark's ground.  
What a scene did there appear,  
Throat being cut from ear to ear.  
Long we looked in sad affright  
Viewing such a horrid sight.

Mrs. Freeman yet did live  
Her fond husband to forgive.  
"What a guilty wretch am I,  
Well I now deserve to die.  
Worthily, innocent has been,  
James dear brother! and I have laid the plan.

"O, my brother could you know  
All the pangs I undergo,  
Laid upon this bed of death  
Soon to yield my vital breath,  
Mind and body, O, what pain!  
All my future hopes are vain.

"You and I have been combined,  
You have led my willing mind  
From the paths of rectitude,  
Now I seal it with my blood.  
I must die, but you will live,  
James, repent, I will forgive!"

### Reminiscences of Otisfield

Dear Editor: My first impulse was to write you a private and confidential letter, but as my remarks will be of more or less public interest, I will proceed by a somewhat critical reference to your sketch of a trip to Casco in last paper under caption "Wayside Notes." I trace you from Norway over former well known roads to where you discovered, in Otisfield, "a few houses, an empty mill pond, a tumbled down sawmill," and venture to surmise that the stream you saw there is the outlet of Moose Pond. Let me correct you? The stream at the site of the wrecked sawmill is the outlet of Saturday Pond and the dam at that place is the same dam, built by Dr. David Ray, one of the earliest pioneers of Otisfield, in or about 1783. His two story dwelling house, built about the same time, stood near the dam for three-fourths of a century and was occupied successively by the families of Dr. Ray, Henry Holden, who married Abigail, youngest daughter of Dr. Ray, and succeeded to ownership of the homestead and other property except the water power and saw and grist mill, located about twenty rods down stream from the dam and receiving their motive power by means of an open flume from the mill pond—now empty. The last family to occupy the old Ray mansion in the Ray line of descent, was that of Moses Spiller, whose wife was Elizabeth Holden, youngest daughter of Henry and Abigail Holden, and successor to the homestead of the Ray-Holden ancestry.

The original Ray mansion was constructed of huge pine timbers and boarded with red oak plank an inch and a half thick at least, perhaps two inches thick—I am not sure, ask Moses, he'll tell you. Frank and Harry Spiller and their sister, Mrs. Nellie Donnell of Falls Church, Va., were all born in the old mansion, I think. The old fortress was torn down in the seventies or eighties and a new, modern mansion erected by Moses Spiller, a little nearer to the mill pond than the old one. The farm and buildings are now owned by a family of Finns. The wrecked sawmill you noted at the dam was one of two sawmills erected and operated at different times by Joseph W. Holden, esq., the eminent Otisfield philosopher and the most strenuous modern opponent—next to the Roman Catholic Church—of the Copernician system of Astronomy. His grave is in the neat, well kept cemetery, opposite the "well-kept church" you noted; but, I'm pretty sure you only peeped casually into that cemetery. Had you gone inside you could not help discovering the conspicuous headstone at the resting place of one of the most original geniuses ever born in the town. His epitaph reads: "Prof. Joseph W. Holden, Born Otisfield, Me., Aug. 24, 1816; d. Mar. 30, 1900. Prof. Holden, the old astronomer, discovered that the earth is flat, stationary and that the sun does move."

The pretty church with the belfry is not in its original form. The first meeting house on that site was wider than the present edifice. It was erected in 1828, the year I was born, and my grandfather, Timothy Fernald, and my father, Otis Fernald, were the builders of the original building. Thomas B. Chambers of Otisfield worked for them as carpenter and boarded with my father—so I have heard mother say. Soon after the close of the Civil War, I think in 1867, the old "Free Meeting House," as it was known, because the pews were owned by both Free Will Baptists and Methodists, was dismantled of its covering, and thoroughly remodelled by bringing its side walls nearer together, and changing the interior plan by abolishing the old high pulpit and altar and turning the pews to face the rear of the room. I was employed to paint the inside of the new church by Benjamin F. Holden, who was master workman of the remodeling improvements.

I am writing this letter on a lap writing board mounted with a clip, constructed from a lower panel of an inside door of the church that was of the same age as myself; in which I attended the public services of the Free Will Baptists and Methodists alternately each Sunday until 1888, when we moved to Foster's Mills.

My Sunday school teacher was Mrs. Cordelia Wright, wife of Dea. Eliphalet Wright, who lived where George Knight now lives. My lessons consisted in memorizing the 2nd, 3rd, 4th and 5th chapters of Matthew and the 1st chapter of Luke. I remember we occupied one of the forward pews on the east side of the old church. Elder James Libby of West Poland was the first minister I ever heard preach a sermon, and he was pastor of the Free Will Baptist church for some years after the new first meeting house was completed. Other ministers who officiated regularly in their turn for years, were Elders Gideon Perkins, Austin Wheeler, Darling Huntress, Free Will Baptists, and Rev. Dan Perry, Joseph Lull, Benjamin Foster and some whose names I do not recall, Methodists.

These remembrances and many others occupy most of my thoughts in this late octogenarian period of my life, and cause me many tender emotions. You remember Burns' poem: "My heart's in the Highlands wherever I go." So it is ever in our longing for the days that never will come back.

My reference to the East Otisfield church and its excellent condition of repair and the unusually fine, tasteful condition of the cemetery, will be unworthy of its subject, if I neglect to give due credit to the church women of East Otisfield, who in years past have raised money and contributed their personal services to the object of providing for the interior furnishing of the church, as well as promoting the scheme of the belfry. You know how it is; if it was not for the women, there would not be any church. But they can't vote—not yet; be patient, sisters, 'till next year.

The "Coon Road" is mentioned as the most direct avenue by which to reach Casco and Little Rigby and so onward.

ally historic in the annals of the town and other towns.

Your visit to G. B. Mayberry interested me, as I was acquainted with Griffin in his wee boyhood, too young to go to school, though two brothers and two sisters were under my tuition in the Mayberry Hill district school in 1848-9. I could have foretold that G. B. was destined to an active and influential life, for he was a very lively infant, and a dominant factor of the family life back in the forties of the last century. How do, Griffin! Come and see me.

# We Must Add \$175 to the HUDSON SUPER-SIX

Here is an issue which we can't evade. So we meet it fairly and frankly, but give you a full month's warning. Every Super-Six will be sold at present prices while they last. If you can get one, get it.

The Super-Six of the present series is built from materials contracted last year. There are only 3500 more to go out, including open cars and enclosed. And part of them are sold.

The next production—starting December 1—will be like the present models. The changes, if any, will be only minor refinements. But materials for that series were contracted this year, and at prices enormously advanced.

So the cars now in process are the only Super-Sixes we can deliver at the present Hudson prices. The advance will be \$175 per car.

### No Way Out

Most people know that Hudson profits are amazingly low for our output. Here is the top-place car—the largest-selling fine car in the world with a price above \$1100. Yet it sells way below some fine cars. Still our standards are so high that, despite our big output, profits are very small.

Now these high-grade materials, in one year, have enormously advanced. We must either adopt lower grades of materials, or add the advance to our price.

There is no other way out for fine-car makers whose profits have been fair. This enforced raise means no greater profit to us. So we frankly state the facts.

We shall continue the present-grade Hudson. Next year's models will be the same as this year's; save perhaps in some minor refinements. There will positively be no change in the Super-Six motor. So the added cost—and that alone—will be added to our price.

### NORTH BRIDGTON.

A settlement was reached between the parties last week, in the suit of the Gold Ray Realty Company of Medford, Oregon, against Walter S. Brown and Grace P. Brown, formerly of Seattle, Washington, now of North Bridgton, who were entered in the Supreme Judicial Court at Portland at the April term in 1912. This was the oldest case but one on docket. The suit was brought to recover on a note for \$2,500 drawn Sept. 23, 1911, by Walter S. Brown, who at that time was engaged in a mining proposition at Oregon, which proved unsuccessful. The case has been entered on the docket "for neither party." Walker and Pike appeared for the defendants.

### Maine Apple Crop.

Clyde Wilkins, State Horticulturist, says: The apple crop for the State of Maine this year will be approximately 70% of the normal crop, the yield being especially light in Baldwin and McIntosh varieties like Ben Davis, Harveys, Wealthy, Wolf River, Greenings and Stark which are of poor quality. The reports from the Counties of Somerset, Franklin, Penobscot and Kennebec show a falling off in yield due to so much damp weather causing a poor set of fruit and a heavy June drop. Comparing this year's prospects with the last three years there should be a little better than 300,000 barrels of marketable fruit in the State. There were 600,000 barrels shipped from Maine in 1914 and in 1915 less than 200,000.

### A REPLY TO A RECENT ARTICLE

October 16, 1916.

To the Editor of the Norway Advertiser: In a recent issue of your valuable paper, there appeared a report of a sermon in which the Baptist minister endeavored to discredit Christian Science. Unfortun- ately for him, his honorable respect for the religious helper who lifted him up in the time of dire distress, nor would it be surprising if he joined that Church in order to receive a continuance of such good things, and to help others to receive like blessing.

Christian Scientists sincerely hope that every Church in the land will take up healing the sick by the same means employed by Jesus. At the present time, however, the Christian Science Church is the only one that has had any great degree of success in healing sickness. All manner of sickness, disease and sin have been destroyed by Christian Science practice and teaching, often after every other means had failed to give relief.

It is just as much the duty of every other church to do Jesus' healing works as it is for them to preach. If a clergy- man or church turns the sick away from the door without healing them, and the Christian Science Church takes them in and heals them, is it any wonder these people become Christian Scientists? Most Churches fail altogether to heal the sick by prayer, while the Christian Science Church is able to heal or alleviate suffering in any case. Should a minister of the Gospel point the finger of scorn at the occasional failure of others, while he fails to heal at all? And would Jesus and his disciples have defended the use of drugs? No, because they obtained better results without drugs than modern medical practitioners can ever hope to approximate with drugs. When faith in a drug waxes strong, great things are claimed for it; but even then the results are not satisfactory and faith wanes. So it has been with "quinine," referred to as a remedy for "malaria fever." The recent report of medical experience is to the effect that quinine is not a preventive of malarial fever at all. So it goes on from one drug failure to another without end. Is it not reasonable to conclude that drugs do not act one way or another except as the general faith in them stimulates hope, engenders fear—hope or fear is the real factor in producing whatever effect is manifested.

Jesus said, "If they drink any deadly thing it shall not hurt them." Mark 16:18. And Paul went unharmed at Melita in spite of the sting of the poisonous viper. Knowing the power of God to protect him Paul had no fear, consequently the poison had no effect whatever. Jesus was the most scientific healer the world has ever known. He healed "all manner" of sickness, diseases and sins, by the same process, and he never failed. It is not that the Christian Science and practices the Master's healing and saving religion both Christian and Scientific? Indeed any other method of practice, of failure to heal as well as to preach, would have been characterized by the apostles as "anti Christ" or "science falsely so-called." 1 John 2:16, 17. 1 Tim. 6:20.

Christian Science repudiates faith in drugs, hypnotism, mental cures which depend upon belief that one human mind can control another. Such practices are of the "earthly mind" and are "enmity against God," for "to be carnally minded is death, but to be spiritually minded is life and peace." See Rom. 8. Christian Science depends upon that Mind "which was in Christ" (Phil. 2:5); and those who seek that divine Mind will find that the "Spirit of truth," the Comforter, is present to heal and save here and now just as Jesus promised. See John 14:16, 17.

God can indeed "heal without a belief in Mrs. Eddy." But if one believes that God can heal, he would be compelled to agree with Mrs. Eddy, because she teaches that God alone can heal. So instead of "letting go of Christian Science," one who believes in the "power of God to heal through prayer" would find it eventually. But if Christian Scientists heal the sick and reform the sinners, while the clergyman turns the sick away, it might be pertinent to ask, Who is the follower not of a religion, but of a theory? The only possible answer would be that those who heal the sick as well as preach the Gospel are practical followers of Christ and his teachings.

Christian Science is the most logical exegesis of Scriptural teaching and demonstration. It has never been inveter- ately. I am convinced of this after more than a decade of study and practice of its teachings. If a follower of Mrs. Eddy finds "the way, the truth, the life" as contained in the Bible and elucidated in her writings, can it truly be said that one becomes a "follower of one of the most illogical minds in the universe"? If so, there are thousands who are seeking and finding through it, health, happiness, success, and above all, an abiding faith and understanding of Him whom to know aright is "life eternal."

Finally, it is always well for critics first to try to understand it in public. Otherwise, they too, may run the risk of being made to appear rather illogical.

Yours sincerely,

## Break-Neck Speed of Living Causes Nervous Indigestion; Alarming Prevalent Here

Nervous indigestion, due to the modern break-neck speed of living, has become alarmingly prevalent everywhere.

This statement by the Tanlac health expert has created much comment. He continued:

"I have never seen a time when there seemed to be so many cases of nervous indigestion among men and women in all walks of life. Fully half of those I have met during the last few months were suffering from this complaint.

"The symptoms are extreme irritability, nervousness, loss of appetite, sleeplessness, and an almost unconquerable restlessness. Everything the victim eats disagrees with him. There are pains in the abdomen and palpitation of the heart. Such cases are usually accompanied by constipation.

"I attribute the prevalence of this trouble to the fast pace at which both men and women are forcing themselves to live. Everybody is engaged in a mad scramble for wealth during this high tide of prosperity. People are driving themselves beyond their strength. They bolt their meals; they work overtime when they should be resting, and in general disregard common sense laws for health living.

"The will power can drive the human machine just so far, but there is a limit where complications set in and the health breaks down all at once, and the victim is miserable and unhappy—just half sick. Life loses all its zest.

"I have had hundreds of people call on me describing just such symptoms. They try Tanlac and in a week or so most of them tell me that it is helping them to get on their feet again. Tanlac was specially designed to relieve conditions resulting from nervous indigestion and kindred complaints everywhere it has been introduced." The Tanlac health expert then cited the case of a prominent Poland man.

"Yes, I suffered with stomach trouble for eight years," said Arthur E. Bernard, East Poland. "I had almost given up hope of getting well. Why it seemed that it was impossible for me to get over my ailments.

"A neighbor told me about Tanlac and I decided to give it a trial. The very first bottle did more for me than anything I ever tried.

"Tanalac is surely a wonderful medicine and I cannot say too much in favor of it."

Tanalac is now being introduced in Norway at Stone's drug store.
